

## Pricing

There are different fees for attending the conference

Full conference pass (3 days):	
registration before 13th May 2016	575 €
registration before 29th July 2016	675 €
late registration after 29th July 2016	775 €
student rate	350 €
1 day pass:	
standard rate	350 €
student rate	150 €

The conference website will be open for participant registration from 15th February 2016.

## Sponsors

FLOODrisk2016 is the perfect place to meet with colleagues working in Flood Risk Management and Assessment. The conference includes a large exhibition area in which you can represent your organisation, products and services. There are different exhibition and sponsorship packages available.

Besides sponsorship, it is possible to become a partner in the conference and support the event organisation and programme. A full list of partners is available on the FLOODrisk2016 website.

If you would like more information about the sponsorship packages or if you are interested in becoming a partner of the FLOODrisk2016 conference, please contact [sponsor@floodrisk2016.net](mailto:sponsor@floodrisk2016.net)

## Venue

**The FLOODrisk 2016 conference will be held in the Centre des Congrès, Lyon, Fr.** Half-way between sea and mountain, Lyon is at the foot of two hills and crossed by the mighty Rhône and the river Saône. Its long history of flooding and flood protection makes it an excellent meeting place to discuss all issues related to flood risk management.

## International Scientific Committee

We are proud and grateful that over 50 internationally respected scientists have agreed to join the Scientific Committee led by: **Prof Paul Samuels (Chair)**, HR Wallingford, UK, **Dr Michel Lang (Co-chair)**, IRSTEA, Fr and **Dr Frans Klijin (Co-chair)**, Deltares, NL. Details can be found on the website.

## Advisory Committee

The Local Organising Committee (chaired by **Paul Royet, Irstea, Fr**) is advised by an international committee of highly ranked officials and practitioners in the field of flood risk management (co-chaired by **Rémy Tourment, Irstea, Fr** and **Annemargreet de Leeuw, Deltares, NL**). For more information on the committees visit our website: [floodrisk2016.net/committees/](http://floodrisk2016.net/committees/)

# 3rd European Conference on Flood Risk Management

Innovation  
Implementation  
Integration

Call for Abstracts

17

OCTOBER 2016

21

LYON  
FRANCE

## Call for abstracts

FLOODrisk2016 welcomes submissions from all areas with relevance to flood risk. Prospective authors can submit abstracts on the topics outlined via the conference website; [www.floodrisk2016.net/authors/](http://www.floodrisk2016.net/authors/) until **2nd September 2015**. Authors will be notified of acceptance for either oral or poster presentation by 4th November 2015. Abstracts that contribute to the theme of the conference are especially encouraged. Both oral and poster presentations will be published as full-length papers in the proceedings.

## Focus

**FLOODrisk 2016 will bring together researchers, policy makers and practitioners from across the world to share experience and progress made in flood risk research, policy and management practice.**

There will be sessions on progress made, lessons learned and best practice. Participants will share how recent floods in Europe, the USA, Australia and Asia influence discussions in the political, management and scientific arena and how these experiences might lead to new or common approaches towards flood risk management, particularly in Urban areas.

FLOODrisk 2016 will include contributions from a variety of national, European and international flood related initiatives as well as wider international practice.

## Programme

**An extended list of topics in the areas of Flood Risk Assessment and Flood Event Management will be addressed in thematic or special sessions and interactive workshops during this three-day conference. The focus of the programme includes:**

- 1 Characterising the flood hazard** (Probability from all sources, Climate change, Multi-hazard, Data analysis and modelling)
- 2 Characterising the consequences** (Physical, environmental, financial and economic damage, Loss-of-life estimation and modelling, Critical infrastructure and cascading impacts)
- 3 Characterising the flood risk** (Vulnerability and societal resilience, Risk perception and communication, Uncertainty assessment, Risk evaluation and assessment, Hazard and risk mapping)
- 4 Risk management and reduction** (Long-term protection and prevention measures, Non-structural measures and instruments, Management and maintenance of infrastructure, Public education and engagement, Lessons from past events)
- 5 Flood event management** (Civil contingency planning, Forecasting and warning, Evacuation and emergency management, Post-event recovery, Disaster risk reduction)
- 6 Decision making, policy and governance** (Policy appraisal, investment planning and decision making tools, Adaptation to long term change, Residual risk and insurance, EU Floods Directive and international River Basins, Ethics, equity and social responsibility)

## Key dates

<b>2 March 2015</b>	Online abstract submission opens
<b>2 September 2015</b>	Online abstract submission deadline
<b>4 November 2015</b>	Notification of acceptance
<b>15 February 2016</b>	Full paper submission opens
<b>13 May 2016</b>	Full paper submission Deadline
<b>18-20 October 2016</b>	Conference Dates

To receive information and reminders on key FLOODrisk2016 dates, please register on the conference website at [www.floodrisk2016.net](http://www.floodrisk2016.net).
